PARTNERSHIPS**

**Friendly Reminder about Registration: After registering, you will receive a confirmation email containing information about joining the meeting. The confirmation email will also provide you the option to add the meeting to your Outlook Calendar, Google Calendar, or Yahoo Calendar.**

**Goals for the Day:**

1. Review the Scope and Sequence of the Rise and Thrive Campus-Community Partnerships Initiative.
2. Discuss early wins and challenges from completing Deliverable 1 and how they will support the campus-community partnerships going forward.
3. Develop a shared understanding that many of the issues that campus-community partnerships are facing – mental and behavioral health, affordable housing, racism, violence, etc. – are “wicked” problems.
4. Recognize that leaders working to address “wicked” problems must acknowledge that partnership efforts need a foundation of trust and strong relationships because the work done by partnerships is often process-oriented and takes time and patience to develop. (But the result is certainly worth it!)
5. Identify leadership skills from the “tip sheet” that was co-created during Learning Community #1 that can create an environment where a series of small wins over time can create a long-term impact.
6. Reinforce the importance of utilizing a team approach to completing the Rise and Thrive Initiative deliverables.
7. Describe the steps associated with Deliverable 2 of the Rise and Thrive Initiative.
8. Discuss ways to seek support if the partnership is concerned that either scarce resources (time, funds, and personnel) or the COVID-19 pandemic could result in work slippage.

**Learning Community Prep Tip:** You will participate in small group based on the two pre-reads, “What is the Purpose of School” and “To Get to the Good, You Gotta Dance with the Wicked.” As you read, please keep in mind:

- How are the challenges that campus-community partnerships facing similar to what their colleagues in P-12 are facing? How are they different? Why can these challenges be considered “wicked” problems?
- How can the Rise and Thrive Initiative give campus-community partnerships space to try one “solution” for a wicked problem they are facing and look for an early win that could lead to long-term impact?
- What leadership tips have we created that will support us in moving the Rise and Thrive Initiative forward?

**Deadlines to Know:**
